

How Did RChilli Help Berkshire Associates to Improve Their Services for Clients?

“RChilli parsing technology is highly reliable, and we can trust the information we receive to make informed hiring decisions.

Manoj Tiwari,
VP-Business & Product Dev
Berkshire Associates

About Berkshire Associates

Berkshire is a human resources consulting and technology firm specializing in helping companies build the ideal, balanced workforce. In 1983, Berkshire began as one of the first companies to establish an automated way to prepare affirmative action plans (AAPs), revolutionizing the AAP process for HR professionals nationwide. Over the years, Berkshire has expanded its scope of services beyond AAPs to meet the evolving needs of HR professionals with a range of services, training, and software.

Today, these cutting-edge HR solutions have propelled us into a position among the most sought-after providers in the industry.

How Berkshire Associates Met RChilli?

Berkshire Associates is an early adapter of resume parsing technology. They were looking for a solution that could enhance the functionality of their candidate application page for their ATS, balanceTRAK. The company was clear about choosing a reliable resume parser that always gives accurate and quick results without technical lags. After extensive research, they found RChilli, and the partnership has continued.

“RChilli responds immediately to every query. It has an excellent work culture where everyone follows the same approach.
