

# RChilli Resume/CV Parser

RChilli resume parser is a deep learning/AI framework that identifies complete information from resumes and enriches it through its taxonomies.

The resume parser extracts candidate data from resumes in 140+ data fields through REST API. It analyzes resumes created in any document format, such as doc, docx, HTML, pdf, RTF.

# What Does RChilli Resume/CV Parser Offer?

1

## FEATURE NAME:

Rest API Integration

## DESCRIPTION:

RChilli resume parser extracts the resume information in 140+ data fields. For more information, click [here](#).

## USER REQUIREMENT:

*“Candidates leave my job application mid-way because they have to fill in repetitive information in data fields.”*

*“As a recruiter, I spend a lot of my time manually checking each resume and matching it with the job profile.”*

## HOW RESUME/CV PARSER HELPS?

- Candidates can fill profile in less than 10 sec as the parser will automatically fill the data fields.
- Recruiters can shortlist candidates quickly with the help of extracted data.

2

## FEATURE NAME:

Bulk Parsing

## DESCRIPTION:

It allows RChilli resume parser to parse multiple resumes in a go. All you need to do is upload multiple resumes to the given FTP, and you will get the extracted information in seconds.

## USER REQUIREMENT:

*“I am getting resume feed from a partner site and have other resume data sets. Parsing such a big number will consume a lot of my time.”*

## HOW RESUME/CV PARSER HELPS?

- Easily import million of resumes overnight
- Customer delight

3

## FEATURE NAME:

Email Inbox Integration

## DESCRIPTION:

Email inbox integration allows users to parse resumes from single or multiple email inboxes. This feature requires a simple process and a quick one-time setup.

## USER REQUIREMENT:

*“We get numerous resumes on our email IDs. How can we ensure that we screen all these resumes and do not miss on quality candidates?”*

## HOW RESUME/CV PARSER HELPS?

- Within less than 2 seconds, get resume data in your database
- Saves data entry time post-event by 90%
- Shorten client onboarding

**FEATURE NAME:**

Configurable Data Fields

**DESCRIPTION:**

RChilli resume parser can remove the data which you feel can cause bias in your recruiting decision. You can identify the data fields and have the option to enable/disable fields as per your requirement. Once you disable the fields, the parser will not fetch data for the same. For more information on these fields, click [here](#).

**USER REQUIREMENT:**

*“I may not require parsing results for all data fields. Is there a way I can get the freedom to choose resume data fields for which you need information?”*

*“I do not want to get information about data fields that can cause bias e.g. name, age, gender, marital status, candidate image, etc.”*

**HOW RESUME/CV PARSER HELPS?**

- Remove unconscious bias through Switch on/off fields

5

## FEATURE NAME:

Apply Now Button with 2-min Integration

## DESCRIPTION:

Option to integrate RChilli RScript plugin directly to your web page within 2 min. If you have a resume upload form on your website, you can easily use RScript.

## USER REQUIREMENT:

*“I am in an urgent need of a parser and do not have time for doing API integration. Can I still use your parser?”*

## HOW RESUME/CV PARSER HELPS?

- Quickly integrate the ‘apply now’ button on your career page within 2 min
- Shortens the integration time by 98%
- Option to upload resumes from LinkedIn, Dropbox, Google Drive, Microsoft OneDrive, etc.

6

## FEATURE NAME:

Document Template Creation

## DESCRIPTION:

We save the parsed data in a document template designed to bring uniformity in the presentation.

## USER REQUIREMENT:

*“My resumes look unstructured when it comes to its presentation. Is there a way that they can look uniform to give more clarity to the recruiter?”*

## HOW RESUME/CV PARSER HELPS?

- Mask resumes before sending to the client

# 7

## FEATURE NAME:

Executive/Management Summary Creation

## DESCRIPTION:

It helps in showing synopsis of resume to the recruiters

## USER REQUIREMENT:

*“I need to read the entire resume to know about a candidate. It takes a lot of my time.”*

## HOW RESUME/CV PARSER HELPS?

- Recruiters can evaluate a candidate just by reading the summary

# 8

## FEATURE NAME:

Multi-lingual Support

## DESCRIPTION:

rchilli resume parser supports parsing in 30+ languages. It does not require any separate configuration. The parser auto-identifies the languages of the resume and extracts the information.

For more information about the languages, go to <https://www.rchilli.com/languages>

## USER REQUIREMENT:

*“I get resumes in multiple languages. How can I parse resumes that are not in English?”*

## HOW RESUME/CV PARSER HELPS?

- Recruiters can get more quality candidates from across the globe.
