

About the Company

WHISHWORKS is a global IT services and consulting company with a strong focus on technology and enterprise solutions. Established in 2008, the company helps medium and large enterprises improve business performance by leveraging information technology and developing innovative and cost-effective solutions.

Skiptask is their contemporary product for the new-age innovations and technology based HR systems.

Challenge

Expanding globally and treading the path of unwieldy resume management, core challenge was to get a parser which is agile, persistent and supports all formats. Also it should be capable of reading earlier versions of MS-word and consistent with PDF versions. The Open XML in use was not capable of maintaining interoperability standards as a result communication was not streamlined between clients and partners. Accuracy, scalability and consistency were also on their Radar. An intuitive platform can set the foundation for all-in-one solution and manage process infrastructure to bring proven results.

Rchilli Contribution

Rchilli made a big contribution on their challenge-zone which runs as follows:

- All-Format-Supported parser helped them in dealing with all kind of resumes and earlier versions were not left out to chance.
- Processing time was instantaneous.
- Consistent and Accurate (up to 95%) in results.
- Cloud Compatibility and HR-XML certified.
- Pricing is apt per usage, scale as when you grow.

[HR-XML](#) certification sets the interoperability standards between HR technologies that ensure all ATS and HRMS works harmoniously and interchangeably.

Rchilli Impact

This made them realize their monetary goals in quick time as they were spending more time on their core activities rather than on resume handling. Now they were able to parse better and handle more resumes with fewer exceptions which made more candidates to sign up for their service. More candidates, more resumes and more companies to sell what they got in results. So when are you going to call for a personalized [demo!](#) .

Get closer than ever to your customers. So close that you tell them what they need well before they realize it themselves." - Steve Jobs, Apple.
